	BMP71 Portable Label Printer	BradyPrinter S3000 Sign & Label Printer	BradyPrinter S3100 Sign & Label Printer	BBP35/BBP37 Multicolour Sign & Label Printers
<b>Description</b>	The BMP71, one smart printer to print it all. This ultimate Brady Mobile Printer helps you deal with every situation, speeds up your labelling and keeps you going on and on. It prints any die-cut or continuous label - also custom labels - up to 50.8mm in more than 30 different materials.	The BradyPrinter S3000 Sign and Label Printer is a peripheral industrial monochrome sign and label printer for facility, safety and Lean/5S applications. Designed to be easy to use and versatile enough to handle all of your indoor and outdoor labeling needs using the industry's best materials. Automatic label setup with no calibration, 20-second material changeovers. This printer comes with a free Brady WorkStation Basic Design Software Suite, enabling you to immediately start designing professional signs and labels.	The BradyPrinter S3100 Sign and Label Printer is extremely easy to use and features auto-calibration and automatic label material setup. This will enable you to just walk up to the printer and start printing the signs and labels you need. Switching to another label material is easy and extremely fast thanks to the printer's 'drop-in' label materials and matching ink ribbons that can be switched out in less than 20 seconds. An intuitive user interface with touch screen offers a wide variety of sign & label design options, even when the printer is used in standalone mode.	Brady's BBP35/BBP37 label printers offer outstanding colour capabilities to quickly create a safer, more productive facility. The printer's simple, automatic label setup and intuitive touchscreen enable you to make signs on demand and on-site in any colour and shape!
